

JAKUB BRAMBOR

3rd year CS student & aspiring programmer

I am an enthusiast of software engineering, data science and database management. Also, I am an efficient and hard-working student that looks forward to working with data and software in a friendly environment. I strive for new knowledge and opportunities in the IT sector, as I am a quick learner and a valuable team player.

Poznań, Poland

Education

● BSc in Computer Science

Poznań University of Technology
2021-2025

Languages

Polish (native)

English (C1)

French (B1)

Skills

Data Science

Java + OOP

ML & AI

SQL & PL/SQL

Data Visualization

Python & R

Databases

C++

Presentation skills

Oracle Apex

OSINT & Forensics

Postman

Analytic Thinking

Software Engineering

Certification

Data Scientist with Python & R - Datacamp
Introduction & Intermediate R - Datacamp
Privilege Escalation in Linux - PUTrequest_

Experience

GHOST participant

Poznań University of Technology

Oct 2023 - Now

I am a keen participant and presenter in Group Of Horribly Optimistic Statisticians group. Thanks to the participation I gained valuable skills such as presentation skills, and got to work with libraries such as Tensorflow, Pandas and Scikit-learn.

PUTrequest_ section leader & participant

Poznań University of Technology

Oct 2022 - Now

I am a marketing section leader and participant in OSINT and Forensics sections. During my participation I gained skills such as methods of carrying investigations using OSINT techniques and usage of cybersecurity tools.

Projects

Dungeons and Dragons Manager Application

Application for Dungeon Masters in D&D - a collaborated project using Database Management System and Oracle Apex
<https://github.com/august3sas/apex-dnd-database-project>

Scenario Quality Checker API

Collaborated project in Java for checking use-case scenario's quality.
<https://github.com/august3sas/put-scenario-quality-checker>

Tetris 3D

Collaborated project in C++ using OpenGL for Computer Graphics course.
<https://github.com/august3sas/Tetris3D>

Statistical Analysis of Public Transport in Poznań

Personal Project in R that performs an analysis of public transport's punctuality.
https://github.com/august3sas/punctuality_test_poznan/tree/main
